

2014 S4 Term 1 Enrichment Project: Crime & Punishment

S4 Enrichment Project 2014

Group Work

Option A

Part 1

Do research on:

1. Alternative forms of punishment to the death penalty
2. The emergence of cyber crimes

- ★ In your ensuing discussions and the final presentation, include detailed and comprehensive considerations (of ethics and human rights) in determining the punishment to be meted out.
- ★ **Include** full consideration of ways to police and fight such crimes
- ★ Justify for/against Singapore's mandatory death sentence.
- ★ Examine if perceptions of justice in meting out punishments are determined by cultural, historical and social values (in alignment with changes in the 21st century).

Capture the key elements of your research in a concept map or a mind-map and present it via PPT or Prezi.

Part 2

Do research on at least **two RECENT/LANDMARK case studies** of the crimes in question (either a cyber crime or a recent controversial case of the death penalty). Choose **ONE** case study to examine. Imagine you are the judge deciding on the court order¹ (note: not sentence), what would your recommendation be?

- 1) How should the State punish these offenders?
- 2) Explain the rationale for your suggested form of punishment. Make clear the theories or concepts that you subscribe to.
- 3) What is the purpose of the recommended punishment?

A court order (or court ruling) is an official proclamation by a judge (or panel of judges) that defines the legal relationships between the parties to a hearing, a trial, an appeal or other court proceedings. **Such ruling requires or authorizes the carrying out of certain steps by one or more parties to a case.** A court order must be signed by a judge; some jurisdiction may require it to be notarized. (wikipedia)

2014 S4 Term 1 Enrichment Project: Crime & Punishment

Option B

Part 1 Go to: <http://www.juvenilecourtofsingapore.gov.sg/> and <http://statutes.agc.gov.sg> to research the following topics:

- ★ Jurisdiction of the Juvenile Court
- ★ The Philosophy of the Restorative Model
- ★ Procedures and Powers (Principles of Sentencing and Types of Sentences)
- ★ Restorative Programmes associated with the Juvenile Court
- ★ Singapore's Penal Code on related crimes (for adults)

Capture the key elements of your research in a concept map or a mind-map and present it via PPT or Prezi.

Part 2 Do research on at least **two RECENT/LANDMARK case studies** of juvenile crime. Choose **ONE** case study to examine. Imagine you are the judge deciding on the court order² (note: not sentence), what would your recommendation be, bearing in mind the following?

- 4) How should the State punish these juvenile offenders? (*Assumption: No one gets off scot-free even if he / she is a minor*).
- 5) Explain the rationale for your suggested form of punishment. Make clear the theories or concepts that you subscribe to.
- 6) What is the purpose of the recommended punishment?

2014 S4 Term 1 Enrichment Project: Crime & Punishment

SUBMISSION DETAILS

- **Print and distribute a 1-page handout** on the case-studies you have chosen **for the entire class**: *Include basic details, your rationale for choosing the case-studies, and your final recommended judgements.*
- **Submit the 1-page handout together with a handout of your PPT in hardcopy to your teacher for documentation.**
- Email a softcopy of the slides and the handout to your teacher **by 10pm on the DAY OF THE PRESENTATION.**

Schedule
